

E-Zine

April 2021

The StudyNet Group Company is about to launch the publishing of a monthly/quarterly e-zine and hereby present the first edition for your attention.

Main Activities

As in every sphere of global industry, the pandemic situation affected the education industry just as dramatically. Due to this, many students decided to defer their Fall 2020 offers to Spring intakes in 2021. The company admissions department has been assisting the students with this process and with booking their accommodation.

Alongside it, most of the universities have had to prolong their deadlines for accepting applications for the spring intake in order to support the students in making their decisions based on the latest changes in the pandemic situation.

Statistic overview

The company has managed to recruit a substantial number of students despite the pandemic situation. The percentage of recruited students for undergraduate and postgraduate degree programs is given below for specific countries and regions:

UK – 40 %

European countries – 30%

USA - 25 %

Canada – 15%

Achievements

The first quarter of 2021 has also been a successful period for SNG for other reasons:

- The company has gained ICEF Recognized Agency status which enables the company to make new partnerships with internationally acknowledged and high-ranking educational institutions around the world.
- One of the most well-known universities in the UK – Coventry University - has announced SNG as an exclusive partner in the Caucasus region.
- The company has managed to generate new partnership agreements with two additional universities – The [Calverton School](#) in New York, USA and [Staffordshire University](#) in the UK

Publishing on the webpage

Publishing on the webpage

During past terms, we have made numerous posts on our official webpage of where you can find updated news about scholarship opportunities, new programs offered by universities and virtual and live events hosted by the institutions. These can be found at:

Predicted activities for the next quarter

For the upcoming period, we will continue to provide full support to the students who are dreaming of studying abroad. Applications for the September 2021 intake have now been closed for most of the programs/universities; however those applicants who have not been offered a place can still apply in the Clearing stage of the applications where vacant places on courses will be offered as a second chance. Besides, as in previous years, we will be offering summer classes for high school students as well as for adults. These are a great opportunity to improve language skills when abroad, together with gaining new academic and life skills.

Stay tuned...
